

AMW MINING

& Allied Services Enterprise — Mining Consultancy • Compliance • Blast Engineering • Digital Solutions

✓ MSME (Udyam) Registered

✓ UNGM Registered Supplier

✓ GST & IEC Ready

✓ www.amwmining.in

Who We Are

Trusted mining partner from India to the world

Founded in 2022 and MSME-registered, **AMW Mining & Allied Services Enterprise** combines deep field experience in Indian mining regulations with modern engineering software and AI — serving iron ore, limestone, manganese and aggregate operations across **India, the GCC, Africa and Southeast Asia**, from single-blast design to full statutory compliance, environmental monitoring, hardware supply and digital transformation.

Our Credentials

Registered, empanelled & ready

MSME (Udyam) Registered

Recognised MSME in Professional, Scientific & Technical Services, fully compliant with Government of India norms.

UDYAM-BR-26-009370-2022

Government Empanelment

Registered with National Career Services, Ministry of Labour & Employment — empanelled training & placement partner.

GST & IEC

GST-registered with a ready Importer Exporter Code (IEC) from DGFT — enabling seamless cross-border trade.

GSTIN: 10ABUPF7542H1Z0

UNGM Registered Supplier — United Nations Global Marketplace

Registered across nine UN agencies — enabling participation in UN procurement for mining, environmental and technical services worldwide.

UNDP

ITC

UNOPS

IAEA

ILO

UNESCO

UNIDO

WMO

WTO

Our Services

End-to-end across the mining lifecycle

Statutory Compliance

DGMS returns, PESO licensing, Mines Act 1952 & MMR 1961, QEMR, audits.

Blast Engineering

Burden/spacing/stemming/timing design, PPV prediction & control, flyrock management.

Blast Vibration Monitoring

DGMS-ready monitoring with InstanTel / Nomis seismographs, analysis & reporting.

Mine Planning

Bench & haul-road design, excavation planning, equipment matching.

Environmental

Air/noise monitoring, NAAQS compliance, dust modeling, EIA/EMP, ISO 14001.

Hardware & Instruments Supply

25+ instruments — monitors, exploders, DTH hammers, bits, rods, rigs on rent — global + Chinese & Indian alternatives.

Training

Blast design, safety, environmental compliance & software training.

Software & AI

BlastManager Pro, CompliancePortal, Mine Digital Twin, IoT.

2022

Established — MSME-registered enterprise

25+

Blasting instruments & field hardware

9

UN agencies registered via UNGM

4

Continents served — India, GCC, Africa, SE Asia

Flagship Software

We build the software we recommend

BlastManager Pro — blast design & records

Burden/spacing/stemming/timing design, PPV prediction, blast records.

MineSafety Tracker — safety compliance

Safety audits, incident tracking, training & competency matrices.

CompliancePortal — statutory returns

DGMS returns, PESO licensing workflows, QEMR and regulatory filing.

GeoTwin Digital — 3D mine models

Bench & haul-road design, excavation planning, equipment matching.

Mine Digital Twin — AI environmental twin

Predictive pollution models — R^2 0.78 on 5 years of Odisha iron ore belt data.

AI Dispatch Optimizer — fleet intelligence

IoT fleet tracking, haul optimisation and productivity analytics.

Where We Work

India & international

India

Jharkhand

Odisha

Chhattisgarh

Madhya Pradesh

Rajasthan

Karnataka

Kerala

International

GCC — Oman

GCC — UAE

GCC — Saudi Arabia

Africa

Southeast Asia

Why AMW Mining

End-to-end statutory lifecycle — DGMS to IBM, State DGM to PCB.

Global reach, local expertise — India, GCC, Africa & SE Asia.

Statutory-ready documentation — every report and design is DGMS / IBM-ready.

Tech-forward — we build the software we recommend.

Cost-effective solutions — making mining economical.

Responsive support — on-site and remote, across time zones.

Core Values

✓ Integrity

✓ Safety First

✓ Innovation

✓ Reliability

✓ Sustainability

AMW MINING & ALLIED SERVICES ENTERPRISE

From single-blast design to full statutory compliance management — **we deliver end-to-end mining solutions.**
