

DGMS Forms Automator

Forms That File Themselves.

🖥️ Web Application 🏢 AMW Mining & Allied Services 🌐 amwmining.in

DGMS Forms Automator generates and files all statutory DGMS forms — Form A (Mine Plan), Form D (Annual Return), Form G (Explosives), and every other required return — automatically, accurately, and on time.

❗ The Challenge

DGMS forms require precise data entry across dozens of fields, strict formatting, and timely submission. Errors cause rejections, delays, and potential penalties.

✅ Our Solution

DGMS Forms Automator pre-fills forms from your operational data, validates every field, and generates submission-ready documents.

Key Features

Purpose-built capabilities for the mining industry

Form A - Mine Plan

Automated mine plan filing with geological data integration and DGMS format compliance.

Form D - Annual Return

Annual production, workforce, and safety data compilation in DGMS-prescribed format.

Form G - Explosives

Explosives consumption, storage, and usage register auto-populated from blast records.

All Statutory Returns

Complete library of DGMS forms with data mapping from your operational systems.

Validation Engine

Real-time field validation, cross-referencing, and completeness checks before submission.

E-Filing Ready

Formatted and packaged for direct submission to DGMS online portal or manual filing.

Impact & Results

Measurable outcomes from real mining operations

Zero

Form rejection errors

80%

Faster form completion

On-time

100% filing record

Audit-proof

Data traceability

Ideal For

- ✓ Mine compliance officers
- ✓ DGMS liaison teams
- ✓ Multi-mine operations
- ✓ Statutory auditors
